Certificate of Analysis

PRODUCT: Mouse PBMCs
STRAIN: CD1
SEX: Female
AGE: 8 to 12 weeks
CAT. NO. 3H2010-5
LOT. NO. MPBMC1020
UNIT SIZE: 5 million/vial
PRESENTATION: The mouse PBMCs are isolated from peripheral blood and cryopreserved immediately.

ANALYSIS:

	Limits	Result
Cell count	5 million	9 million
Viability after thawing	80%	98%
Mononuclear cells	85%	93%
Viability after centrifugation	80%	87,8%

This material is for in vitro research use only

TERMS AND CONDITIONS: The user assumes all responsibility for its usage and disposal in accordance with all regulations and agrees to indemnify and hold 3H Biomedical harmless for any use of this product other than specifically stated. The information expressed in this product data sheets represent best effort to provide accurate and reproducible data about the material. However test methods and techniques for biological materials may produce variable results, therefore, the user should evaluate the material for suitability in a given system prior to purchase. Lot specific samples are available at the customer's request and users are encouraged to evaluate the sample prior to purchase.
