Carbenicillin

Cat.No.	Unit
G054	1.0 g

Cat. No.	G054
Name	Carbenicillin
Unit	1.0 g
Category	Buffers & General Chemicals
Description	Carbenicillin is a broad-spectrum, β -lactam antibiotic commonly used in molecular biology to select for carbenicillin-resistant bacterial strains , particularly those carrying plasmids with the β-lactamase (bla) gene . It is often preferred over ampicillin due to its greater stability and reduced satellite colony formation on agar plates.
Recommended Protocol	Working concentration to be determined by end user based on their application.
Storage Condition	Store at -20°C for up to one year. Keep away from light.

Caution: *This product is for research use only and is not intended for therapeutic or diagnostic applications.*

Please contact a technical service representative for more information (1-866-757-2414).
