pRetro-E2

Cat.No.

E-515

Unit

10 µg

Cat. No.

E-515

Name

pRetro-E2

Unit

10 µg

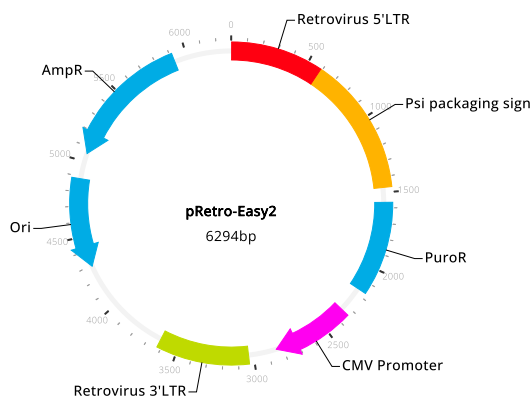

Description

Retroviral gene transfer enables stable gene expression in dividing cells. abm's Retro-Easy™ systems offer a fast, efficient method to produce high-titer retroviruses for gene transduction. The Retro-Easy2™ System includes the pRetro-E2 vector, featuring a user-friendly multiple cloning site and a Neomycin selection marker for easy cloning and post-infection selection.
