RNase A Solution

Cat.No.

G118

Unit

1.0 ml; 10 mg/ml

Cat. No.

G118

Name

RNase A Solution

Unit

1.0 ml; 10 mg/ml

Category

Reagents and Chemicals

Description

RNase A cleaves single stranded RNA by hydrolyzing it at C and U residues. RNase A is usually used for the removal of RNA from plasmid DNA preparations.

Concentration

Final usage concentration should be determined by end user based on specific application and usage.

Storage Condition

Store at -20°C.

Caution: This product is for research use only and is not intended for therapeutic or diagnostic applications.

Please contact a technical service representative for more information (1-866-757-2414).
